DETAILED ACTION

Response to Arguments

1. In view of the appeal brief filed on 11-3-03, PROSECUTION IS HEREBY REOPENED. A restriction requirement is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options once a new grounds of rejection is made:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

2. The amendment after-final (filed 7-7-03) has been entered only in part. Claims 20, 31-32 indicated in both the after-final and the appeal brief were previously canceled in the amendment filed May 21, 2002 of paper number 7.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C.

121:

I. Claims 1-13, 22-30, 39-45, 48-49, 54-70, and 72-83 are drawn to an electronic asset utilization system, server, and method with exchange certificate and electronic asset transmission classified in class 705, subclass 40.

II. Claims 14-19, 21, 33-38, 46-47, 50-53, and 71 are drawn to an electronic asset utilization system, server, and method with exchange certificate and electronic asset transmission for a booking request, classified in class 705, subclass 40.

4. Inventions Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group I has separate utility such as utility for making transactions not requiring a booking. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Mr. Garvey on 1-7-04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
